Explanation of Responses:

1. The acquisition of deferred stock units represents the vesting of performance share units (PSUs) awarded to the reporting person on January 2, 2015, under the UTC Long-Term Incentive Plan. Each PSU has a value equal to one share of UTC common stock. The PSUs vested solely upon achievement of pre-established performance targets for UTC's earnings per share growth and total shareholder return over a three-year performance period, which ended on December 31, 2017. The performance criteria were satisfied at the 28% level. The reporting person previously elected to defer receipt of the actual shares of common stock that otherwise would be received upon the vesting of these PSUs and instead acquired deferred stock units that settle exclusively in shares and are included in Table 1 as common stock equivalents. Each deferred stock unit has a value equal to one share of UTC common stock.
