## UTC REPORTS FOURTH QUARTER EPS UP 16 PERCENT TO \$0.71 AND FULL YEAR EPS UP 18 PERCENT TO \$3.12 BEFORE ADOPTING FIN 47; 2005 CASH FLOW FROM OPERATIONS REACHES \$4.3 BILLION; 2006 OUTLOOK AFFIRMED

HARTFORD, Conn., January 24, 2006 – United Technologies Corp. (NYSE:UTX) today reported fourth quarter 2005 earnings per share of \$0.71 and net income of \$721 million, up 16 percent and 18 percent, respectively. References in this release to net income and earnings per share are before the cumulative effect of a change in accounting related to the adoption of FASB Interpretation No. 47 (*Accounting for Conditional Asset Retirement Obligations*) which resulted in a non-cash after tax cumulative impact of \$95 million or \$0.09 per share and was recorded in fourth quarter results. Consolidated revenues for the quarter increased 14 percent to \$11.3 billion, reflecting organic growth of 9 percent and the addition of recent acquisitions, principally Kidde and Rocketdyne.

In the quarter, foreign currency translation reduced earnings by \$0.02 per share and revenues by 1 percent.

Full year earnings per share of \$3.12 and net income of \$3.16 billion were both 18 percent higher than 2004 results. Revenues increased 14 percent to \$42.7 billion, including 7 points of organic growth and the benefit of acquisitions.

Cash flow from operations after capital expenditures exceeded net income for both the quarter and the full year. In the fourth quarter, cash flow from operations was \$1.15 billion and capital expenditures were \$345 million. For the full year, cash flow from operations was \$4.33 billion and capital expenditures were \$929 million. Voluntary contributions to pension plans were \$298 million in the fourth quarter and \$663 million for the year.

"We had an exceptional year in 2005 and see more of the same in 2006," said UTC Chairman and Chief Executive Officer George David.

"Organic growth for the year was a solid 7 percent, and we ended the year on an up quarter at 9 percent. Following 2004's 8 percent, these rates reflect favorable conditions in most of our markets and UTC's currently strong product line-up. All UTC segments delivered double digit operating profit increases for the year. Cash flow after capital expenditures exceeded net income in both the quarter and year, our usual standard."

"We're starting 2006 with lots of momentum," David added. "We confirm expectations for earnings per share in the range of \$3.40 to \$3.55 and for cash flow after capital expenditures equal to net income for the year. We also expect to continue the current share repurchase rate into 2006 taking the total to approximately \$1.5 billion for the year."

Share repurchase in the quarter was \$421 million and brought the year's total to \$1.18 billion. Acquisition spending, including debt assumed, was \$4.6 billion for the year with approximately \$500 million in the fourth quarter. Debt to capital ended the year at 33 percent.

Fourth quarter results include restructuring costs of \$97 million. For the year, restructuring costs totaled \$267 million and slightly exceeded the impact of favorable items. Additional favorable items are anticipated in 2006 to offset trailing costs from previous restructuring actions as well as to fund potential new actions initiated throughout the year.

The accompanying tables include information integral to assessing the company's financial position, operating performance, and cash flow.

United Technologies Corp., based in Hartford, Connecticut, is a diversified company that provides a broad range of high technology products and support services to the building systems and aerospace industries.

This release is supplemented by presentation materials that are available on UTC's website at www.utc.com, and includes "forward looking statements" concerning

expected revenue, earnings, cash flow and other matters that are subject to risks and uncertainties. Important factors that could cause actual results to differ materially from those anticipated or implied in forward looking statements include the health of the global economy; strength of end market demand in building construction and in both the commercial and defense segments of the aerospace industry; fluctuation in commodity prices, interest rates, foreign currency exchange rates, and the impact of weather conditions; and company specific items including the availability and impact of acquisitions, the rate and ability to effectively integrate these acquired businesses, the ability to achieve cost reductions at planned levels, and the outcome of legal proceedings. For information identifying other important economic, political, regulatory, legal, technological, competitive and other uncertainties, see UTC's SEC filings as submitted from time to time, including but not limited to, the information in the "Business" section of UTC's Annual Report on Form 10-K, the information included in UTC's 10-K and 10-Q Reports under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations", and the information included in Current Reports on Form 8-K.

As described on the following pages, consolidated results for the years and quarters ended December 31, 2005 and 2004 include restructuring and related charges and non-recurring items.

### **Consolidated Operating Profit**

Consolidated operating profit for the years and quarters ended December 31, 2005 and 2004 includes restructuring and related charges as follows:

	Èn	Quarter Ended December 31,  (Unaudited) 2005 2004		Year Ended December 31,	
				(Unaudited) 2005 2004	
Restructuring and Related Charges					
Otis	\$ 22	\$ 27	\$ 52	\$144	
Carrier	18	39	80	241	
UTC Fire & Security	10	_	21	_	
Pratt & Whitney	23	55	39	152	
Hamilton Sundstrand	24	36	66	71	
Sikorsky	_	1	3	9	
Segment Operating Profit	97	158	261	617	
Eliminations and other	_	1	6	15	
General corporate expenses	_	_	_		
Consolidated Operating Profit		\$159	\$267	\$632	

Consolidated results for the years and quarters ended December 31, 2005 and 2004 include the following non-recurring items:

### 2005

<u>Q2</u>

- Eliminations and Other: Approximately \$75 million non-cash gain on shares held in Snecma, a French aerospace company, upon its merger with SAGEM. Approximately \$45 million interest income related to 1994-1999 U.S. federal tax audits.
- **Income Taxes**: Net favorable income tax adjustment of approximately \$60 million, principally related to 1994-1999 U.S. federal tax audits. The tax impact of Hamilton Sundstrand's divestiture of its Falk business was substantially offset by the tax benefit arising from the sale of a non-core Carrier refrigeration business. Neither transaction significantly impacted pre-tax earnings.

In the second quarter, the net impact of the above favorable items (\$0.14 per share), together with \$70 million of pre-tax restructuring and related charges (\$0.05 per share), contributed \$0.09 to earnings per share.

<u>Q1</u>

**Eliminations and Other:** Approximately \$30 million gain from the sale of a portion of the shares held in Snecma.

<u>2004</u>

<u>Q4</u>

• **Eliminations and Other**: Approximately \$100 million of income relating to the disposition of an interest in a joint venture and interest income related to 1986—1993 U.S. federal tax audits.

<u>Q2</u>

- Eliminations and Other: Approximately \$125 million interest income related to settlement of 1986-1993 U.S. federal tax audits.
- Income Taxes: Favorable income tax adjustment of approximately \$80 million, related to settlement of 1986-1993 U.S. federal tax audits.

In the second quarter, the net impact of the above favorable items, together with \$156 million of pre-tax restructuring and related charges, contributed \$0.07 to earnings per share.

<u>Q1</u>

• Eliminations and Other: \$250 million gain following a payment from DaimlerChrysler in consideration for the Corporation's release of certain commitments made by DaimlerChrysler in support of MTU Aero Engines GmbH.

#### **Notes to Condensed Consolidated Financial Statements**

- (1) UTC adopted Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), "Share-Based Payment", (SFAS 123(R)) as of January 1, 2005 using the modified retrospective method described in the standard. This standard requires the cost of stock options to be measured at fair value and recognized in the statement of operations on the grant date. In accordance with the standard all periods prior to January 1, 2005 were restated to reflect the impact of the standard as if it had been adopted on January 1, 1995, the original effective date of SFAS No. 123.
- (2) Financial Accounting Standards Board (FASB) Interpretation No. 47, "Accounting for Conditional Asset Retirement Obligations" (an interpretation of FASB Statement No. 143) was issued in March 2005. This Interpretation provides clarification with respect to the timing of liability recognition for legal obligations associated with the retirement of tangible long-lived assets when the timing and/or method of settlement of the obligation is conditional on a future event. This Interpretation requires that the fair value of a liability for a conditional asset retirement obligation be recognized in the period in which it occurred if a reasonable estimate of fair value can be made. UTC has determined that legal obligations exist for certain of its worldwide owned and leased facilities related primarily to building materials. We adopted the provision of this Interpretation on December 31, 2005 and recorded a non-cash transition impact of \$95 million, net of taxes, which is reported as a Cumulative Effect of a Change in Accounting Principle, Net of Tax in the Statement of Operations.
- (3) Certain reclassifications have been made to prior year amounts to conform to current year presentation.
- (4) Debt to total capitalization equals total debt divided by total debt plus equity. Net debt to net capitalization equals total debt less cash and cash equivalents divided by total debt plus equity less cash and cash equivalents.
- (5) Organic growth represents the total reported revenue increase within the Corporation's ongoing businesses less the impact of foreign currency translation, acquisitions and divestitures completed in the preceding twelve months and significant non-recurring items. Non-recurring revenues that are not included in organic growth in 2005 include approximately \$45 million of interest income related to 1994-1999 U.S. federal tax audits and approximately \$105 million of investment gains on shares held in Snecma, a French aerospace company. Non-recurring revenues that are excluded from organic growth in 2004 include approximately \$170 million of interest income associated with settlement of tax audits, an approximately \$60 million non-cash gain associated with the disposition of an interest in a joint venture and the first quarter contract related gain of \$250 million.
