

#### 3Q 2020 Earnings Conference Call

October 27, 2020

### **Forward-Looking Statements**

Note: All results and expectations in the presentation reflect continuing operations unless otherwise noted.

This press release contains statements which, to the extent they are not statements of historical or present fact, constitute "forward-looking statements" under the securities laws. From time to time, oral or written forwardlooking statements may also be included in other information released to the public. These forward-looking statements are intended to provide Raytheon Technologies Corporation's ("RTC") management's current expectations or plans for our future operating and financial performance, based on assumptions currently believed to be valid. Forward-looking statements can be identified by the use of words such as "believe," "expect," "expectations," "plans," "strategy," "prospects," "estimate," "project," "target," "anticipate," "will," "should," "see," "guidance," "outlook," "confident," "on track" and other words of similar meaning. Forward-looking statements may include, among other things, statements relating to future sales, earnings, cash flow, results of operations, uses of cash, share repurchases, tax rates, R&D spend, other measures of financial performance, potential future plans, strategies or transactions, credit ratings and net indebtedness, other anticipated benefits to RTC of United Technologies Corporation's ("UTC") Rockwell Collins acquisition, the merger between UTC and Raytheon Company ("Raytheon", and such merger, the "merger") or the spin-offs by UTC of Otis Worldwide Corporation and Carrier Global Corporation into separate independent companies (the "separation transactions"), including estimated synergies and customer cost savings resulting from the merger and the separation transactions and other statements that are not solely historical facts. All forward-looking statements involve risks, uncertainties and other factors that may cause actual results to differ materially from those expressed or implied in the forward-looking statements. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995. Such risks, uncertainties and other factors include, without limitation: (1) the effect of economic conditions in the industries and markets in which RTC operates in the U.S. and globally and any changes therein, including financial market conditions, fluctuations in commodity prices, interest rates and foreign currency exchange rates, levels of end market demand in both the commercial and defense segments of the aerospace industry, levels of air travel, financial condition of commercial airlines, and the impact of pandemic health issues (including COVID-19 and its effects, among other things, on global supply, demand and distribution capabilities as the COVID-19 outbreak continues and results in an increasingly prolonged period of disruption to air travel and commercial activities generally, and significant restrictions and limitations on businesses, particularly within the aerospace and commercial airlines industries) aviation safety concerns, weather conditions and natural disasters, the financial condition of our customers and suppliers, and the risks associated with U.S. government sales (including changes or shifts in defense spending due to budgetary constraints, spending cuts resulting from sequestration or the allocation of funds to governmental responses to COVID-19, a government shutdown, or otherwise, and uncertain funding of programs); (2) challenges in the development, production, delivery, support, performance and realization of the anticipated benefits (including our expected returns under customer contracts) of advanced technologies and new products and services: (3) the scope, nature, impact or timing of acquisition and divestiture activity, including among other things the integration of UTC's and Raytheon's businesses or the integration of RTC with other businesses and realization of synergies and opportunities for growth and innovation and incurrence of related costs and expenses; (4) RTC's levels of indebtedness, capital spending and research and development spending; (5) future availability of credit and factors that may affect such availability, including credit market conditions and our capital structure: (6) the timing and scope of future repurchases by RTC of its common stock, which have been suspended through the end of the calendar year and may continue to be suspended, or discontinued or delayed, at any time due to various factors, including market conditions and the level of other investing activities and uses of cash; (7) delays and disruption in delivery of materials and services from suppliers; (8) company and customer-directed cost reduction efforts and restructuring costs and savings and other consequences thereof (including the potential termination of U.S. government contracts and performance under undefinitized contract awards and the potential inability to recover termination costs); (9) new business and investment opportunities; (10) the ability to realize the intended benefits of organizational changes; (11) the anticipated benefits of diversification and balance of operations across product lines, regions and industries; (12) the outcome of legal proceedings, investigations and other contingencies; (13) pension plan assumptions and future contributions; (14) the impact of the negotiation of collective bargaining agreements and labor disputes; (15) the effect of changes in political conditions in the U.S. and other countries in which RTC and its businesses operate, including a change in the Administration or change in the makeup of Congress following the outcome of the November 2020 elections that may impact, among other things, regulatory approvals, the effect of changes in U.S. trade policies or the U.K.'s withdrawal from the European Union, on general market conditions, global trade policies and currency exchange rates in the near term and beyond; (16) the effect of changes in tax (including U.S. tax reform enacted on December 22, 2017, which is commonly referred to as the Tax Cuts and Jobs Act of 2017), environmental, regulatory and other laws and regulations (including, among other things, export and import requirements such as the International Traffic in Arms Regulations and the Export Administration Regulations, anti-bribery and anti-corruption requirements, including the Foreign Corrupt Practices Act, industrial cooperation agreement obligations, and procurement and other regulations) in the U.S. and other countries in which RTC and its businesses operate; (17) the possibility that the anticipated benefits from the combination of UTC's and Raytheon's businesses (including ongoing integration activities from historic UTC and Raytheon acquisitions prior to the merger) cannot be realized in full or at all or may take longer to realize than expected, or the possibility that costs or difficulties related to the integration of UTC's businesses with Raytheon's will be greater than expected or may not result in the achievement of estimated synergies within the contemplated time frame or at all; (18) the ability of RTC to retain and hire key personnel and the ability of our personnel to continue to operate our facilities and businesses around the world in light of, among other factors, the COVID-19 outbreak; (19) the expected benefits to RTC of the separation transactions; (20) the intended qualification of (i) the merger as a tax-free reorganization and (ii) the separation transactions as tax-free to UTC and former UTC shareowners, in each case, for U.S. federal income tax purposes; and (21) the risk that dissynergy costs incurred in connection with the separation transactions will exceed legacy UTC's or legacy Raytheon's estimates. For additional information on identifying factors that may cause actual results to vary materially from those stated in forward-looking statements, see the reports of RTC, UTC and Raytheon on Forms S-4, 10-K, 10-Q and 8-K filed with or furnished to the Securities and Exchange Commission from time to time. Any forward-looking statement speaks only as of the date on which it is made, and RTC assumes no obligation to update or revise such statement, whether as a result of new information, future events or otherwise, except as required by applicable law.

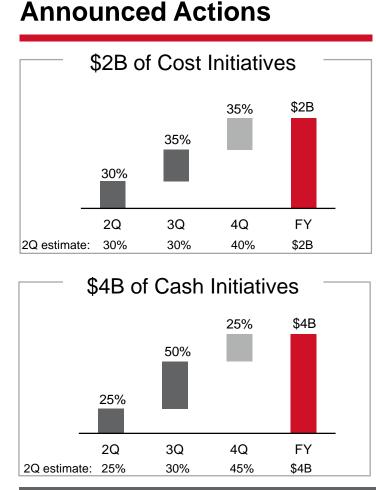

# **3Q Highlights**

- Sales in line with expectations, and better than expected adjusted EPS and free cash flow
- Robust defense backlog of over \$70B
- Executing cost reduction and cash conservation actions
  - ~\$700M of cost reduction realized in 3Q
  - ~\$1.9B of cash conservation realized in 3Q
- Achieved over \$65M in RTX synergies (~\$100M year-to-date)
- Achieved \$40M in Collins synergies (~\$430M acquisition to date)
- Completed Military GPS and Space ISR divestitures resulting in \$2B net proceeds

Results reflect continued progress and acceleration of cost reduction and cash conservation actions

## **Cost and Cash Actions**

#### **Headcount Actions**

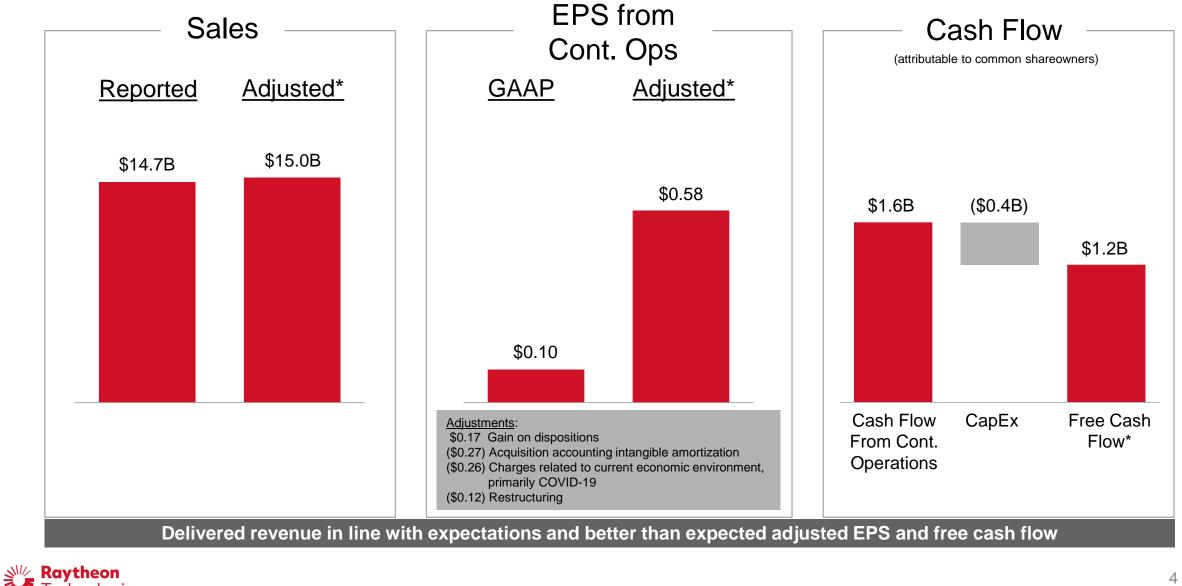

- 15,000 reduction
  - ~20% commercial aero reduction at Collins and Pratt
- 4,000 contractor roles reduced
  - ~50% reduction
- Temporary furloughs
- Hiring freeze and merit deferrals
- Disciplined hiring to support Defense growth

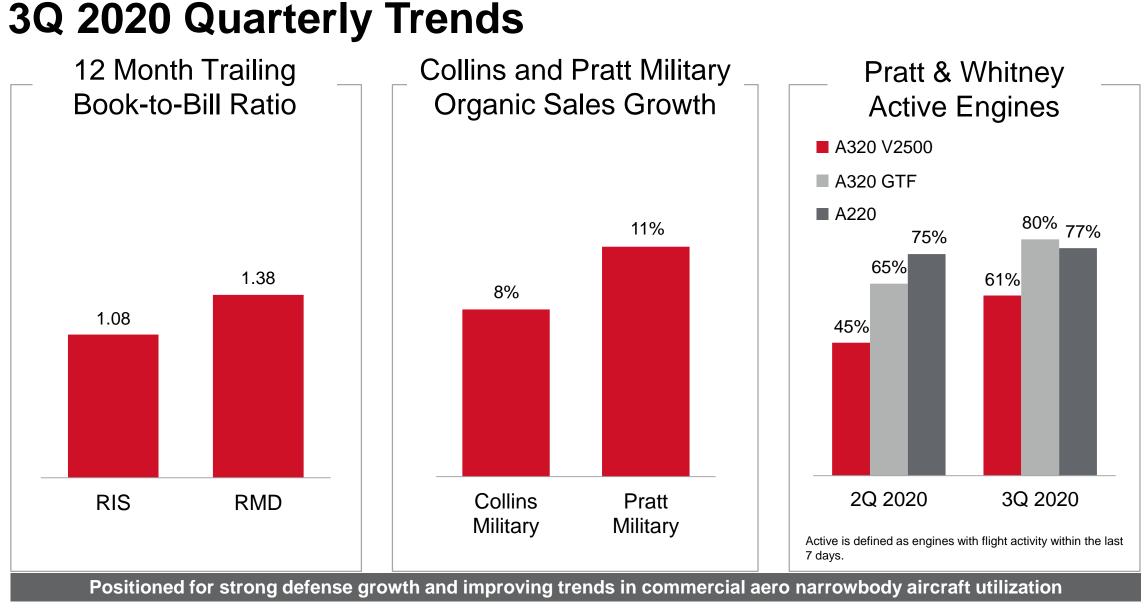

#### **Structural Actions**

- Footprint reduction
- High cost to low cost manufacturing
- Process automation
- Pratt turbine airfoil facility
  - Value stream co-location
  - Low cost location
  - Highly automated
  - World class lean processes
  - Run rate savings ~\$175M annually

Focused on structural actions that will position RTX to emerge from the pandemic in a position of strength

# **Collins Aerospace Segment Highlights**

			(\$ millions)
	Reported	Adjusted*	YOY Var.*
Sales	4,274	4,278	(34)%
Operating Profit	526	73	(94)%
ROS	12.3%	1.7%	

- Organic sales\* down 33%
- Adjusted sales\* down 34%
  - Commercial OEM down 44%
  - Commercial aftermarket down 52%
  - Military up 4% (up 8% ex-divestitures and FX)
- Adjusted operating profit\* down 94%
  - Lower sales and unfavorable absorption driven by COVID-19 impact
  - Cost mitigation tailwinds
  - Synergy capture
  - Favorable military volume

With the new Kiosk Connect solution, supported by the ARINC SelfPass<sup>™</sup> system, Collins Aerospace is providing the first full, end-to-end, contactless airport journey. By simply scanning a QR code with their mobile device, passengers can quickly connect to a common use kiosk using either the airport's public Wi-Fi or the kiosk's built-in Wi-Fi, with no requirement to download any apps. The system uses a single token ID driven by secure biometrics, and does not require the presentation of traditional boarding and identification documents, but rather facial recognition. Users are able to complete the check-in process on their phones and produce boarding passes and bag tags without ever touching the kiosk screen.

# **Pratt & Whitney Segment Highlights**

(¢ milliona)

			(\$ millions)
	Reported	Adjusted*	YOY Var.*
Sales	3,494	3,790	(28)%
Operating Profit	(615)	(43)	(108)%
ROS	(17.6)%	(1.1)%

- Adjusted sales\* down 28%
  - Commercial OEM down 30%
  - Commercial aftermarket down 51%
  - Military up 11%
- Adjusted operating profit\* down 108%
  - Lower sales and unfavorable absorption driven by COVID-19 impact
  - Cost mitigation tailwinds
  - Favorable military volume

A representative F135 engine undergoes developmental testing in the same J-2 test cell where first-of-its-kind collaboration took place at Arnold Engineering Development Complex (AEDC) at Arnold Air Force Base in Tennessee in September 2020. During the event, Navy and Air Force propulsion engineers and testers remotely collaborated on engine testing happening in real-time at AEDC while testers at NAS Patuxent River participated remotely from Naval Air Warfare Center Aircraft Division's Remote Data Room.

# **Raytheon Intelligence & Space Segment Highlights**

	(\$ millions)
	Reported
Sales	3,674
<b>Operating Profit</b>	348
ROS	9.5%

- Bookings
  - \$928M of classified bookings
  - \$176M to perform operations and sustainment for the U. S. Air Force's Launch and Test Range System (LTRS)
- 12 month trailing book to bill ratio 1.08
- Q3 book-to-bill ratio 0.85
- Backlog \$18.3B

Raytheon Intelligence & Space designs, develops, integrates and provides full life cycle support for key elements of the DoD's ground processing framework.

# **Raytheon Missiles & Defense Segment Highlights**

	(\$ millions)
	Reported
Sales	3,794
Operating Profit	453
ROS	11.9%

- Bookings
  - \$186M for AN/TPY-2 radar program for the Kingdom of Saudi Arabia
- 12 month trailing book-to-bill ratio 1.38
- Q3 book-to-bill ratio 0.69
- Backlog \$31.6B

In September, the first battery of the Patriot Air and Missile defense system officially arrived in Romania. The delivery came 24 months after finalizing the contract, marking the fastest delivery of the most modern capability to address evolving threats. Romania was a strong partner in achieving this milestone, from the readiness of the Romanian Air Forces and commitment of the Government of Romania, to the capabilities in the Romanian industrial base. Romania will be defended with the most current configuration of Patriot, Configuration 3+. This ensures its relevancy for years, and allows Romania to remain aligned with the US and five other European allies and partners that rely on Patriot for their air and missile defense.

# **Current Environment**

- Robust defense backlog
- Cost synergies & cost reduction actions
- Liquidity
- Commercial air traffic
- COVID-19 / macro economic environment

Positioned to deliver ~\$2 billion in full year pro forma free cash flow\*

÷

7

2

## **2020** Priorities

- Support employees, customers and suppliers
- Invest in technology and product innovation
- Execute integration and deliver synergies
- Drive structural cost reduction
- Disciplined capital deployment and maintain strong liquidity

Taking decisive actions to position the business for long-term growth

### **Use and Definitions of Non-GAAP Financial Measures**

Raytheon Technologies Corporation's ("RTC") reports its financial results in accordance with accounting principles generally accepted in the United States ("GAAP").

We supplement the reporting of our financial information determined under GAAP with certain non-GAAP financial information. The non-GAAP information presented provides investors with additional useful information, but should not be considered in isolation or as substitutes for the related GAAP measures. Moreover, other companies may define non-GAAP measures differently, which limits the usefulness of these measures for comparisons with such other companies. We encourage investors to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure.

Adjusted net sales, organic sales, adjusted operating profit (loss), adjusted net income, adjusted earnings per share ("EPS"), adjusted diluted weighted average shares outstanding, and the adjusted effective tax rate are non-GAAP financial measures. Adjusted net sales represents consolidated net sales from continuing operations (a GAAP measure), excluding significant items of a non-recurring and/or nonoperational nature (hereinafter referred to as "other significant items"). Organic sales represents consolidated net sales (a GAAP measure), excluding the impact of foreign currency translation, acquisitions and divestitures completed in the preceding twelve months and other significant items. Adjusted operating profit (loss) represents income from continuing operations (a GAAP measure), excluding restructuring costs, acquisition accounting adjustments and other significant items. Adjusted EPS represents diluted earnings per share from continuing operations (a GAAP measure), excluding restructuring costs, acquisition accounting adjustments and other significant items. Adjusted EPS represents diluted earnings per share from continuing operations (a GAAP measure), excluding restructuring costs, acquisition accounting adjustments. Adjusted diluted weighted average shares outstanding represents diluted weighted average shares outstanding (a GAAP measure), including stock awards which were anti-dilutive during the nine months ended September 30, 2020 as a result of the net loss from operations. The adjusted effective tax rate represents the effective tax rate (a GAAP measure), excluding the tax effect of restructuring costs, acquisition accounting adjustments of operating profit and margins similarly reflect continuing operations, excluding restructuring, acquisition accounting adjustments of operating profit and margins similarly reflect continuing operations, excluding restructuring, acquisition accounting adjustments and other significant items.

Free cash flow is a non-GAAP financial measure that represents cash flow from operations (a GAAP measure) less capital expenditures. Management believes free cash flow is a useful measure of liquidity and an additional basis for assessing RTC's ability to fund its activities, including the financing of acquisitions, debt service, repurchases of RTC's common stock and distribution of earnings to shareowners.

A reconciliation of the non-GAAP measures to the corresponding amounts prepared in accordance with GAAP appears in the tables in this Appendix. The tables provide additional information as to the items and amounts that have been excluded from the adjusted measures.

When we provide our expectation for free cash flow on a forward-looking basis, a reconciliation of the differences between the non-GAAP expectations and the corresponding GAAP measures (expected cash flow from operations) generally is not available without unreasonable effort due to potentially high variability, complexity and low visibility as to the items that would be excluded from the GAAP measure in the relevant future period, such as unusual gains and losses, the ultimate outcome of pending litigation, fluctuations in foreign currency exchange rates, the impact and timing of potential acquisitions and divestitures, and other structural changes or their probable significance. The variability of the excluded items may have a significant, and potentially unpredictable, impact on our future GAAP results.

# Raytheon Technologies: P&W Engine Shipments to Customers

	<u>2019</u>					<u>2020</u>

Quarter Ended September 30.

Nine Months Ended September 30.

(1) Included in other significant items in the table above for the three months ended September 30, 2020 is a net pre-tax charge of \$0.5 billion related to the impact of the COVID-19 pandemic. This amount includes \$0.6 billion of charges related to significant unfavorable contract adjustments. Included in other significant items in the table above for the nine months ended September 30, 2020, is a net pre-tax charge of \$4.2 billion related to the impact of the COVID-19 pandemic. This amount includes a \$3.2 billion impairment of goodwill, \$0.8 billion of charges related to significant unfavorable contract adjustments and \$0.4 billion of charges related to customer bankruptcies and increased collectability risk. Management has determined these items are directly attributable to the COVID-19 pandemic, incremental to similar costs incurred for reasons other than the pandemic, not expected to recur once the impact of the pandemic has subsided, and therefore not indicative of the Company's ongoing operational performance.

(2) In conjunction with the Raytheon Merger, we have revised our definition of Adjusted operating profit, Adjusted net income, and Adjusted EPS to exclude the impact of Acquisition accounting adjustments along with restructuring costs and other significant items. Acquisition accounting adjustments include the amortization expense and impairment charges related to acquired intangible assets related to historical acquisitions, the amortization of the property, plant and equipment fair value adjustment acquired through historical acquisitions, and the amortization of customer contractual obligations related to loss making or below market contracts acquired. Management believes the revision to these non-GAAP measures is useful in providing period-to-period comparisons of the results of the Company's ongoing operational performance. All periods presented reflect the impact of this change.
